GTIN(UPC/EAN) : 0 00 51138 55864 2

Additional Information

The 3M 724 Workstation Monitor continuously monitors the resistance of the operator and worksurface ground connections. The monitor uses a reliable resistance method that actually includes the operator's skin resistance to determine if the system is operating properly. If the operator's resistance exceeds pre-set levels of 10 megohms or 35 megohms, or the wiring connections exceed 3.7
