Fiberwash Fiber Optic Cleaning Pens

FOCCUS™ Fiber-Wash™ Precision Fiber Optic Cleaning Pens contain powerful solvent cleaners that quickly and safely cleans the end face of fiber optic connectors, splices and ribbons. They also dissipates static charge, which prevents attracting airborne contamination that cling to the end face surface. This non-pressurized container can be easily and safely transported. For best results, use with the QbE® Cleaning Platform or CCT™ Clean Connect Tool and the Combination Cleaning™ process.

FIBER-WASH MX (FW2150)
Extra-strength and plastic safe fiber optic cleaner.

Powerful, fast-acting solvent cleaner
Removes broadest range of soils: dust, oils, greases, buffer gel, soils, complex soils, salts and other contaminants
Residue free with fast evaporation

FIBER-WASH NF (FW2170)
Nonflammable and fast drying fiber optic cleaner.

Nonflammable cleaner
Removes a broad range of soils: dust, oils, soils, complex soils, salts and other contaminants
Residue free, low VOC, low global warming potential (GWP)

FIBER-WASH AQ (FW2190)
Nonflammable and aqueous fiber optic cleaner.

Nonflammable aqueous cleaner
Removes a broad range of soils: dust, oils, soils, complex soils, salts and other contaminants
Residue free, low VOC, low global warming potential (GWP)

FEATURES & BENEFITS

Cleans alone or in combination with cleaning platforms, CCT™ tools or swabs
Cleans and eliminates electrostatic deposits of airborne contaminants
Completely portable – controlled dispensing of cleaning solution

APPLICATIONS

All fiber optic connector repair and maintenance applications, including:

- Connector end face cleaning
- Cleaning fiber and splice trays, pre-splice
- Cleans tools and meters
- Cleans cables
- Removes road tar and asphalt grime
- For all maintenance and repair spot cleaning

You may not realize this, but when you send a message through our website, it isn't filtered by some robot or sent away to some faraway land for processing. It drops into my inbox. A request came through for information on fiber optic cleaning kits for a nearby waste incineration plant. Since this w...

Overcoat Pen Can Lock Together Connector and Lock Out Moisture

(/overcoat-pen-can-lock-together-connector-and-lock-out-moisture)

The electronics industry has long used 'gold finger protectants' to reduce this wear. These lubricants are administered by a pen or swab tool and do not float or freeze. Hybrid electrical and fiber optic connectors are only some of the esoteric designs that include TFOCA-II, DOD 'football ferrules' ...
