**40-BT5 | Desktop \ Portable Long Range Bluetooth V5.0 Stereo Audio 2 in 1 Transmitter and Receiver, wired PCM audio decoder**

The 40-BT5 Combination Bluetooth Transmitter Receiver uses Class 1 V 5.0 Bluetooth technology. A high gain dual antenna design is used to achieve long range connectivity, with distances up to 262 ft in open air free space. Use all your Bluetooth devices for reliable operation. Switch the 40-BT5 in to bypass mode for wired (Toslink) Digital PCM to Analog Stereo audio conversion. Tabletop or Wall mount options. Easy connectivity and Pairing to all devices, Computers, Smart phones, Smart watches, Set Top Boxes. DC or Battery powered for portable use.

# 2 Three Modes of Operation

Best Sound Quality & Low Latency & Long Range Transmission

### TX Transmission Mode

TV or DVD as audio source

Bluetooth headphones as output

### Bypass Mode

Non-disturb way to switch to bluetooth devices or wired devices whenever you need

You don't have to disconnect or unplug any cable

Digital Audio In
Analog Audio Output

### RX Receiving Mode

Bluetooth devices as audio source

NFC for fast pairing at RX Mode

Wired Speaker as output

## ABOUT CALRAD ELECTRONICS

Calrad Electronics has been in the same family ownership for over 60 years. Many of our employees have been with the firm for 25 or more years. Many of our customers have been buying from Calrad for even longer than that. Our manufacturers and suppliers in Asia have known and trusted Calrad for generations. It all started in the 1950's . . .
