Product Description

Calrad's 95-1050 HD CCTV Video UTP Baluns: Allows standard coax cables to be replaced by category 5e, 6, 7 and other forms of twisted pair wire in CCTV video camera & surveillance installations. Video baluns provide a more cost effective solution using structured cabling techniques to wire security cameras, up to 4 video signals can be sent over a single cable with 4 UTP wires. By using video baluns, UTP has a smaller profile and the wire can be run over longer distances easier than coax cable and for less money.

Specifications:

- **UTP Termination:** 2 Pin Solderless Terminal Block, accepts 22AWG through 24AWG cables.
- **Video Termination:** 75 Ohm Male BNC connector
- **Video Formats:** HD-TVI, HD-CVI, AHD-Analog signals
- **Housing:** ABS Plastic
- **Size:** L-1.66" x W-.7" x H-.68" (BNC connector excluded)
