Installation:

1. Measure the surface area where the L.E.D. lighting strip is to be installed.
2. Cut the lighting to the desired length, see diagram 1A.
3. Clean the surface that the L.E.D. strip will be mounting to.
4. Peel the adhesive tape from the lighting strip making sure the 4 pin connector for power and control is located in the proper place so connectivity can occur to the L.E.D. controller. Note! observe the polarity arrows on both the male and female 4 pin connectors. Do not bend the lighting strip at a tight 90 degree radius.
