92-401-WH-KIT | White 5 M. Reel, 3-Chip L.E.D. Light Strip with 2.1mm Female & Male Coax Plugs
Suitable for Home, Retail and Commercial applications, Hotels, Bars, Restaurants, Kitchens, Furniture, Automobiles, Boats, Home Theaters, A-V Shelves and Cabinets, Equipment Racks, Accent lighting with thousands of possibilities. Please note! for indoor use only.

- Specifications:**
- **AC Input Voltage\ Current:** 100-240Vac, 50-60Hz, 0.6A
 - **Output Voltage\ Current, DC Power Supply:** 12 Vdc, 5 Amps
 - **Color Temperature:** White **6000K**, 5050 SMD L.E.D.'s
 - **Roll Current\ Size:** Current draw 5.0 Amps, 5M/16.4 ft., width 10mm
 - **Package:** 5M White Lighting, Surface Mount Dimmer, DC Power Supply

- Installation:**
1. Measure the surface area where the L.E.D. lighting strip is to be installed.
 2. Cut the lighting to the desired length, see diagram 1A.
 3. Clean the surface that the L.E.D. strip will be mounting to.
 4. Peel the adhesive tape from the lighting strip making sure the 2.1mm DC coax connector for power and control is located in the proper place so connectivity can occur to the L.E.D. inline dimmer. Do not bend the lighting strip at a tight 90 degree radius.

NOTE: The Power Supply can ONLY Handle 1 Roll (16.4 ft), Calrad's Model: [45-608](#).
Want to Connect Multiple Rolls?
• With Calrad's Models: [45-610-HG-UL](#), [92-348](#) and a [92-353-HG](#) its possible to connect up to 5 Rolls (82 ft). For more info call Tech Department at (323) 465-2131 or [email us](#).

Calrad Electronics has been in the same family ownership for over 60 years. Many of our employees have been with the firm for 25 or more years. Many of our customers have been buying from Calrad for even longer than that. Our manufacturers and suppliers in Asia have known and trusted Calrad for generations. It all started in the 1950's . . .
