

Product Information

Erem sharpest side cutter – Erem 632NCF

Special fine, high precision miniature cutter exclusively designed for soft materials like small Silicone tubings in medical applications, precision connector sealings, miniature rubber gaskets or cutting moulded soft synthetic parts.

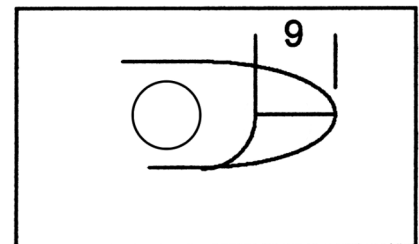

The 632NCF is an addition to the Erem “Magic” line.

The 632 NCF is precisely machined and honed to a razor sharpness to obtain a perfectly flat cut.

Technical characteristics:

- Total length 110 mm, blade length 9 mm
- Internal opening spring with constant spring force
- Handle opening stop
- Highest quality machined tool steel heat treated to ensure durability of the cutting edges
- No blade overbite
- ESD safe, replaceable ergonomic foamy grips

Attention:

This tool is not suitable for cutting materials other than specified. No resharping.
