## SOLDERING IRON

Economical and lightweight design makes these irons ideal for students, hobbyists, and repairing those electric household appliances.

- use the 40W for circuit boards, small electric parts, etc.
- use the 60W for connectors and heavier wiring connections

**Part Number: 501 - V12 (30W)**  
**Part Number: 503F - V12ED (60W)**

(see Specifications for details)
