PCB Mount LCD Hour Meter

Features

- Hour meter suitable for portable devices, vending and gaming machines, printers and copiers
- Recording of running time, outage times, setup times
- Non-volatile memory (no battery)
- Wide temperature range and wide voltage supply range
- Very high reliability
- Small size and low cost

Description

LCD Hour Meter Module for PCB Mount with it's small size of W- 1.28" x H- 0.73" x D- 0.19", allowing for tight spaces in PC Board mounting applications. Low operating current and very high shock and vibration resistance make this PCB Mount LCD Hour Meter Module ideal in many applications.
