GENERAL PURPOSE AND REPLACEMENT LOUDSPEAKERS

American made loudspeakers in sizes ranging from 2 to 6¹/₂ inches for a wide variety of applications.

- For intercom use 8 and 45 ohm voice coils impedances are available.
- Outdoor treated speakers have a strong cotton cloth cone impregnated with phenolic resin for durability.
- Flame retardant speakers with 3.2 or 8 ohm voice coils fulfill the demanding requirements of the aircraft industry.
- Small and shallow depth speakers are available for spatially restricted designs.

- Outdoor treated cones
- Round, square or oval design
- Voice coil impedance's of 8 or 45 ohms for intercom use
- Low profile or shallow available
- Flame retardant cones for aircraft
- Wide variety of mounting patterns
- In stock for immediate shipment
- Multiple choices of power handling
- Speaker baskets are baked epoxy hybrid finish for durability
