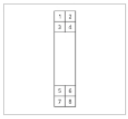
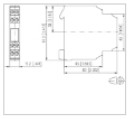
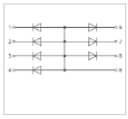
KD-M8/7A







Description

The diode module is equipped with 7 diodes. The anodes of the diodes are all connected to each other. The module is used for failure indication systems (lamp tests).

- common anode
- Connection with screw-type terminals

Technical Data

General Data

Cut-off voltage	1000 V
Input / voltage	250 V AC/DC
Forward current	1 A
Forward voltage	1.1 V at 1 A
Total current through all diodes	less than or equal to 1.8 A
Dimensions (W x H x D)	11.2 x 61.5 x 80 mm
Weight	20 g
Operating temperature range	-10 °C to +50 °C
Storage temperature range	-25 °C to +70 °C
Ingress protection for housing / terminal block	IP40 / IP20
