Terminal Marking Systems

Stock and custom marking solutions to meet any requirement Whether you're marking individual terminals or terminal groups, Sprecher + Schuh's V7-W are accompanied by a wide array of marking solutions. From standard preprinted marker cards to custom marking with our EK Vario Sign software and plotter system, Sprecher + Schuh offers a tremendous variety of options for labeling any terminal assembly.

Marking Cards for all terminal types

Blank, preprinted and custom Marking Cards are available for all sizes of V7-W terminals. Preprinted selections include ten numbers in a series printed either vertically or horizontally. Custom Marking Cards are also available.

1	2	3	1.	4	5		6		7	1	8		9	1	0			
	10	9	0	α 	7		ດ	111	U	1 1 1	4	1 1 1	ω		N	1 1	1

1 2 3 4 5 6 7		2 3 4 5 6 7 8 9 10

Single Digit Marking Tabs

Selected V7-W terminals can be marked with Single Digit Marking Tabs. This convenient marking system is ideal for applications where professional marking is required, but time is critical. Single digit, preprinted alphanumeric characters can be mixed and matched to provide exactly the right label for any terminal.

Custom Marking Cards

All sizes of Sprecher + Schuh Marking Cards can be custom printed on our terminal plotter system. In addition to alphanumeric characters, 17 electrical symbols are also available. There are three convenient methods for obtaining custom Marking Cards:

- Hand write your order on the Custom Printed Marker Cards Order Form on page N38 and fax it to us.
- Use Sprecher + Schuh's EK Vario Sign software to create your own terminal marking files and email them to us for plotting.
- Purchase our complete Terminal Marking System and plot Marking Cards any time you like!

Hand written orders

If you just have a few different cards to plot, or a lot of cards that are similar to one another, using the hand written form is very convenient. Turn to page N38 and follow the instructions for completing and sending the form to us.

EK Vario Sign software

Sprecher + Schuh's EK Vario Sign software works in conjunction with our Terminal Marking System to professionally plot all sizes of Marking Cards.

EK Vario Sign software allows you to design tags for two or four Marking Cards at a time. The screen looks exactly like the plotting surface on the Terminal Marking System.

Zoom-in on one card at a time to input individual marking tags... you can also identify a starting tag and ending tag to "autofill" a range of numbers.

Zoom-in further for "fine tuning" of each marking tag. Adjust spacing left, right, up or down and vary type size to fill each tag with the largest possible type.
