

EMC Components

Common Mode Choke Coils / Filters

ACM2520 -801 -3P -T002 Part Number :

Product Name : Common Mode Filter for Signal Line

TDK Series Name: **ACM Series**

Application:

Used for radiation noise suppression for any electronic devices. Used to counter common - mode noise affecting signals within high speed lines.USB line for PC and peripheral equipment. IEEE1394 line for PC, DVC, STB, etc.LVDS, panel link line for LCD panels

Almost no affect upon even high speed signals since differential mode impedance is kept low.3 -line type

Description:

Although greatly miniaturized, this wire -wound chip -type filter maintains the characteristics needed for a common - mode filter.
