Data sheet | Item number: 2004-404 Jumper; 4-way; insulated; light gray www.wago.com/2004-404

### Data Electrical data

### Ratings per IEC/EN 60664-1

Nominal voltage (III/3)	800 V
Rated current	32 A

Subject to changes. Please also observe the further product documentation!

### Approvals Ex

Rated current (Ex e II)	30 A	

### **Geometrical Data**

Width	22,8 mm / 0.898 inch
Height	19 mm / 0.748 inch
Depth	4,1 mm / 0.161 inch

### Material Data

Color	light gray
Fire load	0.015 MJ
Weight	3.1 g

### **Commercial data**

Product Group	22 (TOPJOB S)
Packaging type	bag
Country of origin	DE
GTIN	4055143699846
Customs tariff number	85366990990

### Installation Notes

### Commoning

The push-in type jumper bar system is based on the common plug and socket principle. Each terminal block is spring-loaded with a double socket and a resilient CrNi steel spring. The jumper contact material is pure electrolytic copper, which allows for an extremely small design capable of carrying the full-rated current of the terminal block. Ground terminal blocks can also be commoned using the same jumper system. Custom jumpers are created by breaking and removing jumper contacts (2000, 2001, 2002, 2004 Series).

Removing a push-in type jumper bar.

Insert the operating tool between the jumper and and partition wall of the dual jumper slots, then lift up the jumper.

Place the operating tool in the center of jumpers up to five contacts (see above), or alternately on both sides for jumpers with more than five contacts.

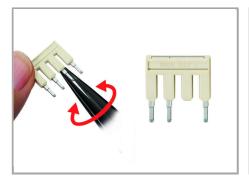

Subject to changes. Please also observe the further product documentation!

### Data sheet | Item number: 2004-404 www.wago.com/2004-404

Custom push-in type jumper bars are created by breaking off jumper contacts.

Marking a push-in type jumper bar using a felt-tip pen.

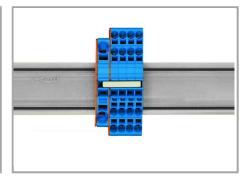

500 V

300 V

### Commoning

Stepping down via push-in type jumper bar.

Stepping down via push-in type jumper bar.

Commoning via closed terminal side with end plate allows jumpering over two crosssection sizes, e.g., from 16 mm<sup>2</sup> (6 AWG) to 6 mm<sup>2</sup> (10 AWG) or from 6 mm<sup>2</sup> (10 AWG) to 2.5 mm<sup>2</sup> (14 AWG) (see illustration above).

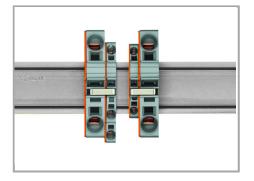

Stepping down via push-in type jumper bar.

Commoning via open terminal side with end plate allows jumpering over two crosssection sizes for 16 mm<sup>2</sup> (6 AWG) and 10 mm<sup>2</sup> (8 AWG) and one cross-section size for 6/4/2.5 mm<sup>2</sup> (10/12/14 AWG). An example: from 16 mm<sup>2</sup> (6 AWG) to 6 mm<sup>2</sup> (10 AWG) (see illustration above) or from 10 mm<sup>2</sup> (8 AWG) to 4 mm<sup>2</sup> (12 AWG).

Subject to changes. Please also observe the further product documentation!

WAGO Kontakttechnik GmbH & Co. KG Hansastr. 27 32423 Minden Phone: +49571 887-0 | Fax: +49571 887-169 Email: info.de@wago.com | Web: www.wago.com Do you have any questions about our products? We are always happy to take your call at +49 (571) 887-44222. www.wago.com/2004-404

Note:

The total current of the outgoing circuits shall not exceed the nominal current of the step-down jumper/push-in type jumper bar.
