COOPER Hand Tools

Battery powered convenience with power to spare for the tough jobs.

The new Weller® BP860 Dual Power Battery-powered Soldering Iron delivers either 8 watts of power on low setting (850°F) or 11 watts on high setting (950°F), giving you the versatility you need to solder everything from microelectronics to small appliances. The BP860 heats to working temperature in less than 15 seconds, and can complete up to 150 solder joints on a single set of four AA alkaline batteries (included). In addition, battery power means the BP860 goes to where the work is with no power cord to worry about. And best of all, it's from Weller, the most trusted name in soldering products for over fifty years.

- Hundreds of uses... microelectronics, hobbies, small appliances, and more
- Heats to working temperature in less than 15 seconds
- Slim, conical shape tip is excellent for close-in work
- Convenient cordless operation allows unlimited mobility
- Dual heat settings (850°F or 950°F) for ultimate versatility
- Storage cap with auto power shut-off
- Includes iron, tip, four Duracell® AA batteries, lead-free solder, tip removal wrench
- Replacement tips available
