**Potential-distribution modules; system accessory**

A wide range of accessory modules is available for individual requirements of machine and plant engineering. Various potential distribution modules are available for the supply of sensors with 2- to 4-wire connection technology directly from the remote I/O system. These offer 16 "PUSH IN" potential points and supply your application with any auxiliary potential available. An empty module, where the system bus and voltage supply are looped through, allows you to plan expansion slots in a system and to start these up without any interruptions if required.

Accessories

EM 8/30 end bracket marker

The EM 8/30 end bracket marker is suitable for labelling the WEW 35/2 and ZEW 35/2 end brackets and can also be used as a group tag carrier for W-series terminals. The EM 8/30 can hold ESO 7/ESO 7P inlay tags. The pocket reliably protects the printing against environmental influences. Inlay tags can be found under "Accessories".
